MARCH GOALS

Volume 10, Number 3

Before you pay your Internal Revenue bills, remember that WBAl wants your money too. Send us a check first. Our financial goal for March is \$35,000, including 800 new subscriptions, and the renewals of 1,200 subscribers. If something tells you that your subscription is running out (like the words EXPIRING, EXPIRED or LAPSED on your Folio label), mail us your label, along with a check for the appropriate amount of money, and be assured that you will receive your Folio without delay (well, maybe just a little delay!). Let us know if you are changing your address, too. There is a coupon on page 14, of this Folio for that purpose. And, if you'd like your Folio sent first class, please add \$5.00 to the amount of your check and demand it.

If you are interested in following the troubled progress of our financial state, you can listen to the daily tally, broadcast just before the 6:30 News each night. A more comprehensive report, along with the other news about WBA1, is broadcast on Report to the Listener by Frank Millspaugh each Tuesday night at 7:00 p.m. (rebroadcast Wednesdays at 9:15 a.m.).

THE COVER

When this Folio was first planned, we scheduled a photograph of the remarkable sculpture of Emil Hess as the cover. But in the weeks between planning and going to press WBAl became the focal point of an astonishing amount of fear and hatred. On the night of January 30 there was a demonstration—or, to be more exact, there were two demonstrations—on East 39th Street. Ben Fernandez, our Photography Editor, showed up along with some forty other supporters of the station and its stand on freedom of speech. That night Ben took the cover photograph and the others that we've scattered through this issue.

The author of In Opposition; Images of American Dissent in the Sixties, Ben is an expert on demonstrations and organized protest. His comment on that night and these pictures: "Protest is good but hatred distorts people."

The photograph of Mr. Hess's work, which should be seen while you hear the music he plays on it, is on page 18 close to the program, Sounds of Sculpture by Emil Hess.

PROGRAMMING NOTES

Our Washington Bureau is producing programs in abundance and of great interest. New this month from that source are weekly Readings from the Congressional Record, and two monthly series: one on the U.S. and foreign affairs—the first is subtitled Who's Kissinger Now? and another on the government's work in the field of consumer protection—called, for the time being, Caveat Emptor. On March 4 Confrontaton: Washington will feature a return engagement by listener request, between anarchist of the left, Andy Kopkind, and anarchist of the right, Karl Hess.

The Scientists' Committee for Public Information, which first revealed the facts about lead poisoning in New York slum children in a program broadcast in July, 1968, discusses the progress made in eliminating the hazard and some organized plans for the future in their monthly program for March.

Magazine 99.5, the open hour for dealing with immediate issues, becomes a weekly program this month. Dale Minor and/or Frank Millspaugh will continue to conduct. At the time this is written, we do not know who the guest speakers will be but in view of the widespread misunderstanding of statements made on WBAI concerning local control of public schools and anti-Semitism among some portions of the black community, it is likely that most Magazine 99.5 programs

will deal with these topics.

Also, to offer representatives of the Jewish community an open microphone to express their views, the *Commentary on Jewish Affairs* will return as a regular Wednesday night program.

From the Drama and Literature Department in March come two rather nasty little productions. One, by the Canadian playwright, Michel Corbeil, is called *Rats* and is about just that ... perhaps; the other, by the master science fiction author, Theodore Sturgeon, is *The Girl Had Guts* and is about something even worse. We suggest listening in a dark room, as in the good old days of radio drama.

Also from D&L, starting this month, a spot on weekdays devoted to readings of extended literary works, in half-hour chunks. The first to be heard is Olaf Stapledon's classic work of speculative fiction, *Last and First Men*, certainly one of the most extraordinary novels ever published.

Baird Searles, the producer, adds that *The New Symposium* which recently went off the air after its alloted 26 weeks has received more mail asking for (nay, demanding) its continuance than any other weekly program in the history of the station. It *will* probably be back on the air after a lapse of a couple of months for r&r by the participants.

Ebullient Eric Salzman, WBAI's Music Director, says: "The Free Music Store is our Saturday midnight music-making event at the New York Shakespeare Theater of which we are very proud. Broadcasts from the Free Store begin on the last two Friday evenings of this month-our Christmas program from last December and part of the marvellous Aeolian Chamber Players Concert from last January. We will continue to broadcast music from the Free Store-generally on Friday nights. In the meantime, come visit us on Saturday. The address is 425 Lafavette: the exact place is Martinson Hall, 3rd floor. We have no seats; so bring pillows and blankets to sit on. There are refreshments nearby which you pay for and we ask for contributions at the door (to make expenses). Otherwise free, free, free and very groovy. Come early or very late to be sure of getting in; we run until somewhere between 2:30 and 3 a.m. We have the best young players and all kinds of old and new music.

"Other special events in this Folio are the New Image of Sound from the Hunter Playhouse with the Buffalo Contemporary Group under Lukas Foss; The Society of Black Composers recorded at I.S. 201; and two tapes from the Incredible String Band's incredible WBAI benefit recorded at the Fillmore way back when. On March 11 Eric Salzman talks with oboist and conductor Henry Schumann and we hear his Wind Ensemble-favorites at the Free Store-play Messiaen and Stravinsky.

The Long Russian Winter continues with Glinka's "Ruslan and Ludmila" and we hear new German music and assorted other Festivaliana hither and thither. Four new from-time-to-time series to watch for begin this month: Your Mother Should Know (campy old pop music), Music of Puerto Rico (Luis Negron), Black Blues (just what it says), and Pepper's Pistachios (??).

FINAL NOTES

At the end of this Folio, beginning on page 28, is a selection of statements by Frank Millspaugh, Robert Goodman, Harold Taylor and Julius Lester. They represent the thoughts of the staff and the members of the board of the Pacifica Foundation on current charges against WBA1.

We think our listener-sponsors should be fully informed on the subject.

11:00 THE FREE MUSIC STORE: New York Motet Singers In case you didn't already know, WBAI and the New York Shakespeare Festival are presenting free Saturday night midnight events at the Public Theater; lots of great music of all kinds in an informal, no seats, non-concert situation—a cross between an 18th century salon, a jam session, a garden party and Be-In. The atmosphere is relaxed yet electric (even if the music is Renaissance). This first Free Store broadcast features a Renaissance/Baroque Christmas (which is just as good in March as it was in December!) with violinists Vladimir Weisman and Joel Lester, Dean Brown, viola da gamba, Harold Chaney, harpsichord, and the Motet Singers under Joseph Hansen and Joshua Rifkin. Program includes a carol and a mass by Jean Mouton, a motet by Heinrich Schutz and three cantatas by Dietrich Buxtehude. (March 24)

A REPORT REGARDING THE CURRENT CONTROVERSY

at WBAI-FM in New York by Frank A. Millspaugh, Jr., General Manager January 21, 1969

On Thursday evening, December 26, 1968, Mr. Julius Lester, producer and host of WBAI's weekly program, THE GREAT PROLETARIAN CULTURAL REVOLUTION, interviewed Mr. Leslie B. Campbell, a teacher in the New York public school system. For several months Mr. Campbell has received public attention as one of the black teachers whose suspension was demanded by the United Federation of Teachers as a condition for ending the citywide strike. Mr. Campbell's suspension from his teaching assignment at JHS 271—one of the schools involved in the Ocean Hill-Brownsville decentralization experiment—was desired because of his alleged harassment of UFT member teachers who opposed the experiment.

The subject of the program was the teaching of minority group children, especially in the context of the decentralization experiment and the teacher's strike. Mr. Campbell offered the thesis that the experiment was offering positive opportunities, many of which had been negatively affected by the strike. Mr. Campbell felt that the strike, with its many racial undertones, had a deleterious effect on the attitudes and aspirations of the children. In the course of the program, Mr. Campbell read several student-composed poems, concluding with three poems by a 15-year-old black girl, one of which was entitled "Anti-Semitism: Dedicated to Albert Shanker." (Albert Shanker, of course, is the president of the UFT).

Mr. Campbell's expressed intent in reading this poem was to exemplify his contention that the UFT strike and the UFT's constant charges of anti-Semitism in Ocean Hill-Brownsville had both planted seeds of anti-Semitism where none before existed and had exacerbated the latent and existing anti-Semitic attitudes where they were present.

The poem contains phrases which are patently anti-Semitic: "Jew-boy" being a constant refrain. Further, its overall tone is hostile toward Jews: "I wish you were dead," etc. Other than general hostility, the poem expresses anger toward Jews on four specific counts. (1) The poem alleges that Jews are insensitive to the suffering of black men, that they belittle this suffering by citing the Nazi persecution of Jews. (2) The poem alleges that black men were the original Hebrews, that the Jews were white men who first appropriated the religion of the blacks, then through United Nations intervention appropriated by force the land of other black men—the Arabs, (3) The poem alleges that Jews have taken control of the school system and operate to perpetuate white control of the society. (4) The poem alleges that Jews have an advantage for success in this society because of their white skin, an asset not shared by the Negroes. However, the last stanza is also significant: "I hated you Jew boy, cause your hangup was the Torah/And my only hang-up my color." In this stanza, the poem seems to put all hatred and resentment for Jews in the past tense and reveals a new level of the author's thought: that the anti-Semitism was not only a specific expression of hatred for all whiteness, but, more importantly, the inverse of the author's self-hatred for being black.

At the conclusion of the reading of the poem, Mr. Campbell stated his belief that the 15-year-old author had "a tremendous sense of the truth". It is not known exactly what he had in mind in this remark. Mr. Lester, at the conclusion of the reading, commented, "Beautiful!" which he has subsequently explained as referring to the concise-

ness of statement by which the poem expressed the attitudes of many, less articulate, young black people.

In the two weeks following this broadcast, WBAI received approximately 30 pieces of mail referring to the program. Most were extremely critical both of the content of the poem and of WBAI for permitting it to be aired.

On Friday evening, January 10, 1969, Dale Minor (Assistant Manager for Programming) and I broadcast a special half-hour program on the matter, which was rebroadcast on January 11, 14, and 15. We did not attempt to deal with the specific content of the poem, but directed our comments to an explanation of why we thought we were justified in permitting its airing. (1) The poem exemplified a growing attitude on the part of the city's black ghetto residents, a phenomenon reported earlier in WBAI's one-hour documentary, NEGROES AND JEWS (first broadcast in December, 1967). (2) The poem evidenced the effect of the tension in the school system this fall in sharpening race hatred. (3) Mr. Campbell is a matter of public controversy and had a right to his public hearing. (4) Granting the anti-Semitism of the poem, even outrageous speech is guaranteed under the First Amendment to the Constitution. (5) WBAI has a positive duty to bring to public attention all data bearing on such important issues as public education and race relations, even when such data are shocking and objectionable to us all.

In the week following the original Millspaugh-Minor broadcast, approximately two dozen letters were received on the subject. Critical responses outnumbered supportive ones about 3 to 1, most people maintaining that the broadcast of anti-Semitic material constitutes an abuse of freedom of speech and encourages anti-Semitism.

On Thursday, January 16, 1969, both *The New York Times* and the *New York* Post ran articles reporting that the UFT had filed a complaint with the FCC alleging that WBAI "was being used to spread anti-Semitic propaganda in general and attacks against New York teachers in particular". It is of interest to note that in the *Times* article, Albert Shanker, president of the UFT, demanded the reversal of a state panel decision to reinstate Mr. Campbell. The panel had found the evidence against Mr. Campbell "insufficient to warrant disciplinary proceedings". Elsewhere in the same paper it was reported that numerous other black teachers and administrators whose suspension had been secured by the UFT strike had been reinstated by state panels and the courts.

Since the 16th, WBAI has received about a thousand pieces of mail on the subject. Of these, perhaps 60% have been critical. Although some of the critical letters have been viciously anti-Negro in content and abusive toward the station in tone, the majority have come from seriously concerned people who have identified themselves as Jewish. Unfortunately, over half of these people appear to have heard of the matter only through the newspaper accounts or on WCBS-TV and have heard neither the original program nor our statements on the subject.

Consistent throughout the letters of complaint is the assertion that freedom of speech is a privilege which is abused in the airing of anti-Semitism, that WBAI would not have permitted the broadcast of an anti-Negro senti-

ment, and that freedom of speech does not extend to "shouting 'Fire!' in a crowded theater." In fact, all these assertions are in error.

First, freedom of speech is a constitutionally guaranteed right, not merely a privilege. As such, it can neither be abused nor abrogated. Second, WBAI has frequently aired anti-Negro statements, most dramatically in the form of an address by an official of the Ku Klux Klan. This, too, brought many protests at the time, but we felt then as we feel now: that the public must be apprised of the depth and extent of racist thought if it is to be seriously treated with and eradicated. Third, Justice Holmes' dictum that freedom of speech does not extend to shouting "Fire!" in a crowded theater applies only in the absence of a fire! When there is indeed a fire, it is perfectly legitimate to say so, even to shout so. As evidenced by the several programs done on the subject in the last two years, WBAI indeed believes there is a fire; we have consistently reported in documentaries, in interviews, and in general discussions that there is a rising tendency to anti-Semitism among an element of the black community and that this sentiment may reach serious and destructive proportions.

Some complainants have also criticized WBAI for allegedly not having provided Albert Shanker, the UFT, or some sympathetic spokesman an opportunity to express the UFT position in regard to the teachers' strike. This, of course, is entirely in error. Throughout the course of the strike, we repeatedly invited the Union to avail itself of our air to respond to criticism and to publicize its position. On some occasions, union spokesmen availed themselves of the offer. At other times, they did not accept the offer. It should also be noted that during this time and at the present a regular WBAI commentator on education, Mr. John Marsh, has consistently supported the UFT position. Further, it cannot be alleged that the UFT has suffered from any unavailability of public media; the union position has been extensively reported by the press -newspapers, radio and television—and during the strike. Mr. Shanker had a regular program of 15 minutes daily on WEVD in which to express any views not given circulation by other media.

In this entire controversy, WBAI has, and wishes to have, no alternative except to reaffirm the programming

principles enunciated in the Pacifica Foundation Charter and restated in April, 1968, in reference to instances of civil disorder. Specifically, WBAI cannot pre-censor the statements of any program participant to eliminate remarks which are in fact or in interpretation, racist. To do so would be to compromise the First Amendment to the Constitution. WBAI is dedicated to the realization of freedom of speech, not just safe and acceptable speech, but all expressions of opinion when they relate to a real and timely issue. The Pacifica Foundation-and WBAI-are founded on and dedicated to the proposition that unless free speech is guaranteed even to the most unpopular view it is guaranteed to no one. It is essential that our listeners. and especially our subscribers, understand that WBAI must stand as an uncompromising example of this radical, political freedom, or else it will have compromised the freedom of us all.

Like most of our listeners, and even our recent critics, the staff and board of WBAI find all forms of racism abhorrent. However, these racist feelings will not disappear by pretending they do not exist; we hope that they may be alleviated by public exposure and discussion.

In order to assure our many serious and concerned listeners of our good faith, within the continuing context of uncompromising freedom, WBAI is undertaking two program initiatives: first, we are re-instituting the COMMENTARY ON JEWISH AFFAIRS series to ensure that matters affecting the Jewish community will get immediate response from recognized leadership within that community; second, in February, we began a bi-weekly, one-hour, open format program produced by Dale Minor and myself in order to have an immediate opportunity to discuss any issues affecting WBAI programming and to offer air availability to persons affected by any current programming thrust. (In March, this program, Magazine 99.5, will be broadcast every Wednesday night.)

The concept of freedom of speech and the journalistic integrity which that implies place a heavy responsibility on both the staff of WBAI and upon our listeners. We must continue to fulfill our commitments even in the face of criticism. The listeners may count on the staff of WBAI to continue probing delicate social issues, even when it hurts, and the staff depends upon the intelligent understanding and support of our listeners, even when it hurts.

STATEMENT

By Harold Taylor,

Chairman of the Board of WBAI-FM, January 28, 1969

At a meeting of the Board of Directors of WBAI on Sunday, January 26, the statement I am about to read was prepared for distribution to the public in connection with the recent controversy having to do with anti-Semitism in the black community. The statement bears the signatures of the full Board membership which consists of Stephen Fischer, Robert Goodman, Melvin Greenberg, Lawrence Pinkham, Albert Ruben, with myself, Harold Taylor, as chairman. Here is the statement:

"The recent expression of anti-Semitic views on programs broadcast over radio station WBAI raises two separate and equally serious issues.

"The first is the responsibility of a free radio station to give the public access to opinions, facts, ideas and persons representing the full range of contemporary history and social reality. Acceptance of this responsibility in-

volves in many cases the presentation of views repugnant to the members of the WBAI staff, the Board of Directors and the subscribers to the station, in addition to various sectors of the attentive public. The character and variety of complaints against the station for having broadcast controversial views in the past is testimony to the success of the effort toward free expression.

"In the present case, the anti-Semitic views expressed over WBAI are deeply repugnant to all of us connected with the station. But if we were to take steps to climinate the expression of views of this or any other kind, we would betray our mission as a First Amendment station, and fall into the trap of those who would refine the rawness of truth in order to make it socially convenient. To be informed of the existence and extent of dangerous social forces is to take the first step toward coping with them

"The second issue has to do with the responsibility of a broadcasting station to enlighten and to inform, rather than simply to report. A First Amendment station which only reported might still be reporting as it was taken over by fascists. Here the station becomes responsible not only for presenting views counter to those expressed by anti-Semites, but for establishing a forum of public discussion and education in which the dangers of bigotry, whether from blacks or whites, the left or the right, are counteracted by informed and enlightened analysis of what the social and educational problems really are. That is what we have been trying to do.

"It is for this purpose that the free speech provisions of the First Amendment were enacted, not merely to encourage loose talk, and it was for the purpose of carrying out the full intent of the Amendment that WBAI was founded as a community-sponsored station supported by its listeners. Bigotry cannot exist in an atmosphere of freedom; the creation of that free atmosphere within the community is the primary aim of the station.

"It is clear that the growth of anti-Semitism within a sector of the black community is a dangerous and disruptive element in the national search for an accommodation between whites and blacks. It is now up to the educating community, including radio, television and press media along with the schools, colleges and agencies of government, to search for the means through which social and educational policy can be made by democratic process rather than by the exchange of invective or by the manipulation of ideologies.

"WBAI and the Pacifica Foundation, of which it is a part, will continue to do everything in their power to aid in that search."

That is the close of the Board's statement.

I would like to add a more personal word of my own to what we have said as a Board of Directors, I have been connected with WBAI since 1961 when I first joined the Board of Directors of the station and agreed to act as Chairman. I did so because, as an educator who had the privilege of acting as President of Sarah Lawrence College for fourteen years, I knew how crucially important it was to create new centers for the arts, for the discussion and analysis of political and social controversy, and for providing direct information on issues before the world which otherwise would never receive enough attention through the regular outlets of the mass media and the commercial newspapers, magazines and radio stations.

Over these past eight years we have had a fair amount of controversy about programs produced at the station, controversy which has ranged from the objections made to our discussion of the problems of homosexuals, objections to the use of obscene language by persons who have broadcast over the station, objections to allowing members of the Communist party to say whatever they wanted, other objections to reports made on the point of view of the North Vietnamese, and to our allowing right wing speakers air time for their speeches and opinions.

It is often very hard for listeners who hear only one of these programs to realize that there are others broadcast at other times expressing contrary views and opinions, and that what we are trying to do at the station is to give as full a range of information and opinion as we possibly can.

It is also hard for listeners to understand that when a speaker or a member of a panel on a given topic comes to the studio that the moderator or interviewer from the station has no control over what the panel member says. If a program is taped, it can of course be edited, if its content in any way violates the laws governing broadcasts, but in the case of live programs, the speakers say what they say without pre-editing by the station.

When there is an issue of the kind in which we are presently involved, it seems to me that we at WBAI. whether the members of our Board, the station manager, the program director or, in this case, Julius Lester, the program producer, have an obligation to extend the range of discussion, and to do everything in our power to counteract the effect of bias and prejudice by a fair and judicious treatment of the entire subject. That is what we have been trying to do, and what we will be doing more intensively in the days and weeks ahead. We are organizing programs in which major figures in the black community and the Jewish community will have a full opportunity to discuss the educational and social problems raised by the development of anti-Semitism in relation to the race question, and the programs on the station will reflect, as they have in the past, our concern for helping to solve the problems which racial conflicts have raised.

In the meantime, our listeners will wish to know that WBAI is part of a larger organization, the Pacifica Foundation, organized twenty years ago. This is a national body responsible to the Federal Communications Commission. for our three stations, WBAI, KPFA in Berkeley, California, and KPFK in Los Angeles Mr. Robert Goodman of New York City, who is also a member of the WBAI Board, is President of the Pacifica Foundation, and has the responsibility of representing the National Board of Directors on all matters of broadcasting policy. Mr. Goodman has been active in the field of education and civil rights for many years. He joined the Pacifica Foundation as a board member, and accepted its presidency two years ago, out of a conviction that, as a citizen, he wished to involve himself in the cause of free speech and free radio. and to make his own contribution to the furtherance of democratic broadcasting and public policy.

REMARKS BY JULIUS LESTER

(Excerpted from his broadcast of January 30, 1969 over WBAI)

Purpose of the Program Perhaps I should explain what I see as my function on the air. I see my primary function as relating to and speaking as a member of the black community. The Lord knows that everybody in New York City... has more than enough outlets for whatever they might want to say, however they might want to say it, and black people do not. So, I'm here two hours a week, trying to serve as a forum for the black community.... Secondly, I'm here to allow those non-blacks who are interested the opportunity to listen and to talk with me in

the hope that they will at least come to some understanding of the black frame of reference, the black psyche, the black mind. This is not to say that I expect them to agree. They may not, and that's fine. I accept that.

On Anti-Semitism Anti-Semitism is a vile phenomenon. It's a phenomenon which has caused millions upon millions of people to lose their lives. However, it's a mistake to equate black anti-Semitism and anti-Semitism which exists in Germany, in Eastern Europe, and in the Middle East Is is a different phenomenon because the power

relationships which exist in this country are different In America, it is we blacks who are the Jews. It is we who are surrounded by a hostile majority. It is we who are constantly under attack. There is no need for black people to wear yellow Stars of David on their sleeves: that Star of David is all over us.

Origins of the Conflict between Blacks and Jews Black people are seeking to gain a degree of power over their lives and in the institutions which affect their lives. It so happens that in many of those institutions, the people who hold the power are Jews. Many people have written me and said that "Jews are not your enemy because they don't hold the real power; there are others back of them who hold the real power." And it's true. However, a colonized people cannot make fine distinctions between who holds the power. And to really understand the dynamics of what is happening now, it is necessary to understand that blacks are a colonized people. All the others are the col-

onizers.

Future Relationships I think that black people have destroyed the previous relationship which they had with the Jewish community, in which we were victims of a kind of paternalism. That has been destroyed and the stage is set now for a real relationship where our feelings, our view of America and how to operate has to be given seriour consideration.

"I do not know many Negroes who are eager to be accepted by white people, still less to be loved by them. They (the blacks) simply don't wish to be beaten over the head by the whites every instant of our brief passage on this planet. White people in this country will have quite enough to do in learning how to accept and love themselves and each other. And when they have achieved this, which will not be tomorrow, and may very well be never, the Negro problem will no longer exist. For it will no longer be needed." (James Baldwin, The Fire Next Time.)

STATEMENT

by Mr. Robert Goodman, President of the Pacifica Foundation, January 28, 1969

I would like to place the present issue about anti-Semitism and WBAI broadcasting in the larger perspective of Pacifica's work in community sponsored radio. The Pacifica Foundation was organized twenty years ago as the first experiment our country had ever made in operating a radio station supported by the listeners themselves and not by advertising and commercial sponsors. KPFA, the Berkeley station, was the first to be established under Lewis Hill in April, 1949. KPFK, in Los Angeles, went on the air in July, 1959, and WBAI here in New York went on the air in January, 1960. Our three stations at the present time have approximately 40,000 subscribers. We are a non-endowed, nonprofit foundation.

The basic objective of the Foundation is stated in its

Articles of Incorporation:

"The purpose of this corporation shall be in radio broadcasting operations to engage in any activity that shall contribute to a lasting understanding between nations and between the individuals of all nations, races, creeds and colors; to gather and disseminate information on the causes of conflict between any and all of such groups; and through any and all means compatible with the purposes of this corporation, to promote the study of political and economic problems and of the cause of religious, philosophical and racial antagonisms; to promote the full distribution of public information; to obtain access to sources of news not commonly brought together in the same medium; and to employ such varied sources in the public presentation of accurate, objective, comprehensive news on all matters vitally affecting the community."

Therefore it will be clear to our WBAI listeners that in giving an opportunity to members of the black community in New York City to appear on our programs and to express their views that we are discharging the duties set down in our Articles of Incorporation. Anti-Semitism in the black community has been discussed and commented upon by others in the broadcasting and news field but in most cases at second hand, WBAI has sought, in the language of the Pacifica Foundation that I have just read,

"to obtain access to sources of news not commonly brought together" and we have obtained such access in the programs of Julius Lester as broadcast on this station.

Statements made directly on this program reveal that anti-Semitism in the black community is a fact of life. It is startling and dangerous. It points to social and political forces which, unless mitigated by wise policy, may well get out of hand, and make it impossible to reach the solution this country must have if we are to live together in friendship and respect for each other.

With our live programming WBAI has revealed an evil in our society. It is an old cancer regrown in a new place. But it can only serve an old purpose—to divide and separate minority groups just when the temper of the times requires their union and common purpose. Historically this has always happened when a society is regrouping itself and changing the relations between peoples. It is not only evil but self-destructive.

WBAI has been criticized for allowing these things to be said on its air. The thrust of the criticism is that such statements should have been censored, should have been prevented somehow, even though the program was live, that a man's tongue should be cut off, that Julius Lester should be silenced.

Our answer is that the practice of freedom of expression, the process of full discussion, open to all, involves some risks to the society that practices it. But the stakes are high and the risks must be run.

If we wish to combat the destructive force of anti-Semitism we should know where it is—what it is—what its causes are—and what to do about it.

Our programs probe these questions as well as expose the problems. Discussion must be kept open no matter how certainly false or pernicious an opinion may seem to be. There is no way of suppressing the false without suppressing the true.

The heart of the Pacifica philosophy lies within the First Amendment to our Constitution. We believe in it. We act on it. Therefore we provide an open forum.
